In the Claims:

This listing of claims will replace all prior versions, and listings, of claims in this application:

1. (Currently Amended) A cabinet comprising:

a top panel, bottom panel, two side panels, and a back panel, each of said panels having an inner and an outer surface; wherein the inner surface of the panels face an interior cavity of the cabinet and the outer surface of the panels form an exterior surface of the cabinet and wherein at least one of said top, side, and bottom panels include a groove on an inner portion of a front edge that is placed where the panel inner surface meets the front edge of the panel to leave a front edge remainder portion;

generally U-shaped edging material having first and second legs connected by a middle a projection portion, wherein an interior surface of the first leg is engaged with the groove of the at least one of said top, side and bottom panels and the middle portion spans the front edge remainder portion, and an interior surface of the second leg abuts the outer surface of the panel; and

wherein a first surface of the edging a terminating end of the second leg extends beyond the outer surface of the panel and at an angle to the outer surface to form an overhang with respect to the exterior surface of the cabinet and wherein an outer surface of the first leg the edging is substantially flush with the inner surface of said at least one panel.

2. (Canceled)

3. (Currently Amended) The cabinet of claim 1, wherein said overhang extends between about 0.125 inch and about 0.5 inch beyond said at least one panel.

4. (Original) The cabinet of claim 1 further comprising one or more middle shelves.

5. (Original) The cabinet of claim 4, wherein said middle shelves include a grooved side and edging secured thereto.
